Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-4, 8, 17-20, 24, 25, 34-37, 41, 63-66, 70, 71, 77, 79, 81 and 85 are rejected under 35 U.S.C. 102(e) as being anticipated by Hoshino et al. (6,628,252).

Fig. 4 discloses a charge pump SWn/C1/C2 and a current mirror Q1-Q3 as recited in claims 1 and 8.

Further shown is a filter C3 as recited in claims 2, 3 and 77.

Further shown is a load circuit 15a/b as recited in claim 4.

Claims 17-20, 24, 25 and 79 are anticipated for the reasons above.

The circuit performs the methods recited in claims 34-37, 41 and 81.

The circuit is for a portable telephone that would inherently include transmitter and receiver means. Claims 63-66, 70, 71 and 85 are otherwise anticipated for the reasons above.

Conclusion

3. Claims 5-7, 9-16, 21-23, 26-33, 38-40, 42-49, 67-69, 72-76, 78, 80, 82 and 86 are objected to as being dependent upon a rejected base claim, but may be allowable if rewritten in

independent form including all of the limitations of the base claim and any intervening claims.

Claims 50-62, 83 and 84 appear to be allowable over the Prior Art of record.
